## How it work

### 1 Get to know you

We will schedule a call online at a convenient time and get to know more about you and your project.

### 3 Free project review

Once we have reviewed your project we present back ideas and design samples on areas we can bring value to your business.

At this point we will also give you a quote on the project.

### 2 Onboard you with

Once commissioned we will put a project plan in place. We'll set you up with our project management tools online where you will be able to observe progress, communicate your thoughts all in one single place.

### 4 Progress to project completion

We will set up regular demos and progress presentation at various stages of the project so you have complete visibility and control.

Once the project has been completed to your satisfaction we could discuss maintenance where applicable or hand over necessary project files.
